

NOAH'S ARK LAB OF HUAWEI TECHNOLOGIES

Founded in 2012, Noah's Ark Lab is the AI research centre for Huawei Technologies. Our mission is to make significant contributions to both the company and society by innovating in artificial intelligence and related fields. Noah's Ark Lab has established global footprint including Hong Kong, Shenzhen, Beijing, Shanghai, Xi'an, London, Paris, Toronto, Montreal, Edmonton, and built global research partnership with the world's top universities and research organizations.
